

HANDWRITING CAMP

Handwriting challenges come in so many different forms! From the child who holds their pencil inefficiently, to the student who was never taught the correct letter formation and now struggles with legible written work, to letter reversals, to poor line awareness and spatial awareness...handwriting is complicated! The goal of the group is to lay the foundation for efficient handwriting by working on the gross motor, fine motor and visual motor skills that support this complex skill. Take the stress out of handwriting with our fun multi-sensory group class for children! Handwriting Group is for kids entering into pre-k-4- 2 nd grade and is led by an occupational therapist and an assistant. The Handwriting group is for children of all abilities. The class is formatted to meet the child's grade level in a fun interactive way with movement breaks provided in our sensory-motor gym.
